### TECHNICAL DATA

#### GENERAL DESCRIPTION:

MARO PU-CLAY is 35mm thick tennis surface that protects the joints and muscles involved, making exercise a more comfortable and enjoyable experience.

#### SPECIFICATION OF COURT SURFACE MATERIALS AND CONSTRUCTION, INCLUDING METHOD OF APPLICATION:

MARO PU-CLAY is water permeable surface that can be situated on gravel aggregate base, water permeable asphalt (drilled holes) or concrete with suitable drainage.

It consists of two layers.

First layer:

First layer consists of gravel aggregate mixed with SBR, adhesive for PU and gross clay.

Second layer:

On penetration primer from adhesive is given gross clay. Not penetration gross clay is swept.

Then fines clay is put on penetration gross clay as final step.

#### LINE MARKINGS:

Lines are from 5cm wide plastic U profile shouldered in surface (U down) by adhesive and hook on site.

#### MAINTENANCE GUIDELINES:

It is required to sweep surface after each play. No other maintenance is required.

#### WARRANTY:

Life time of surface is 10 years, legal warranty is 2 years.
